Comments:

Emma Clapton, Archie Lowe and Sam Clapton had a very close battle with position changing throughout the race. It was in the deciding finish that Emma leading did not take the best route. This was rather like golf putting where you can see your fellow competitors putt and how it changes path. As the two chasers saw Emma descend ahead of them they were able to adjust their descent line to a much shorter route. This left Emma having to hold off her male pursuers and the three of them touched the gate within two seconds of each other. Well done also to Hattie & Elena who won their individual categories. Well done to all taking part.
